IX. Sound **NOTE:** All equipment is well maintained, but nevertheless subject to availability.

1. **System settings and controls:** The hall's sound system is designed to give the user capability of Left/Center/Right (LCR) control while also providing smooth and even sound distribution to every seat in the hall. The system has a proprietary push button control for system power up. This control also allows for muting of unused portion of the system. The push button control allows simplified commands to be sent to a Crestron Pro 2 processor which then recalls the desired settings from the BIAMP AudiaFLEX processor which processes all house equalization, balancing and digital delays.
 2. **Sound Control:** Allen and Heath iLive Fixed Format Digital System
 - 1-ea iLive T112 surface
 - 28 faders-3 banks, 4 layers = 112 control strips
 - 16 line inputs = 8x TRS line, 4x mono, 2x SPDIF

Cabling: The facility has a more-than-adequate amount of microphone, monitor and sub-snake cabling in a variety of lengths.

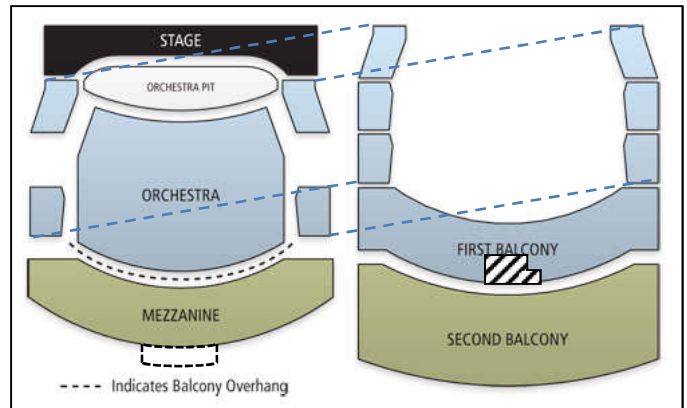

- 8. **ALDS:** Sennheiser SI1015 infrared assisted listening system runs independent from the playback system.
- 9. **Backstage and lobby monitor and paging systems:** All backstage areas and lobbies are on separate monitoring systems using a permanent overhead monitoring microphone. Both systems can be used for paging independently from control booth stage manager's position.

10. Location of Consoles:

Due to the limited seating capacity of the Bedell Performance Hall:

a. Sound: The only available sound mix position  is in the first balcony level in an area 9'-3" wide by 6'-2" deep (internal dimensions) with an extra 3' by 3' rack area on right side.

b. Lighting: The lighting console is almost always placed in the control booth  behind the Mezzanine level or with the sound console in the area indicated above.

- 11. **Projection** may be from within lighting control booth or anywhere we can make it work.
- 12. **Room acoustics** may be modified to user's preference through adjustment of ten acoustic draperies located against audience left and right walls (five each side).

XI. Travel Directions, Maps and Plans

NOTE: Internet search: 518 S. Fountain St., 63703 ◀ **BE SURE TO USE SOUTH FOUNTAIN AND 63703!**
 LAT & LONG: 37°18'33"N 89°32'47"W Decimal: 37.309042, -89.546498

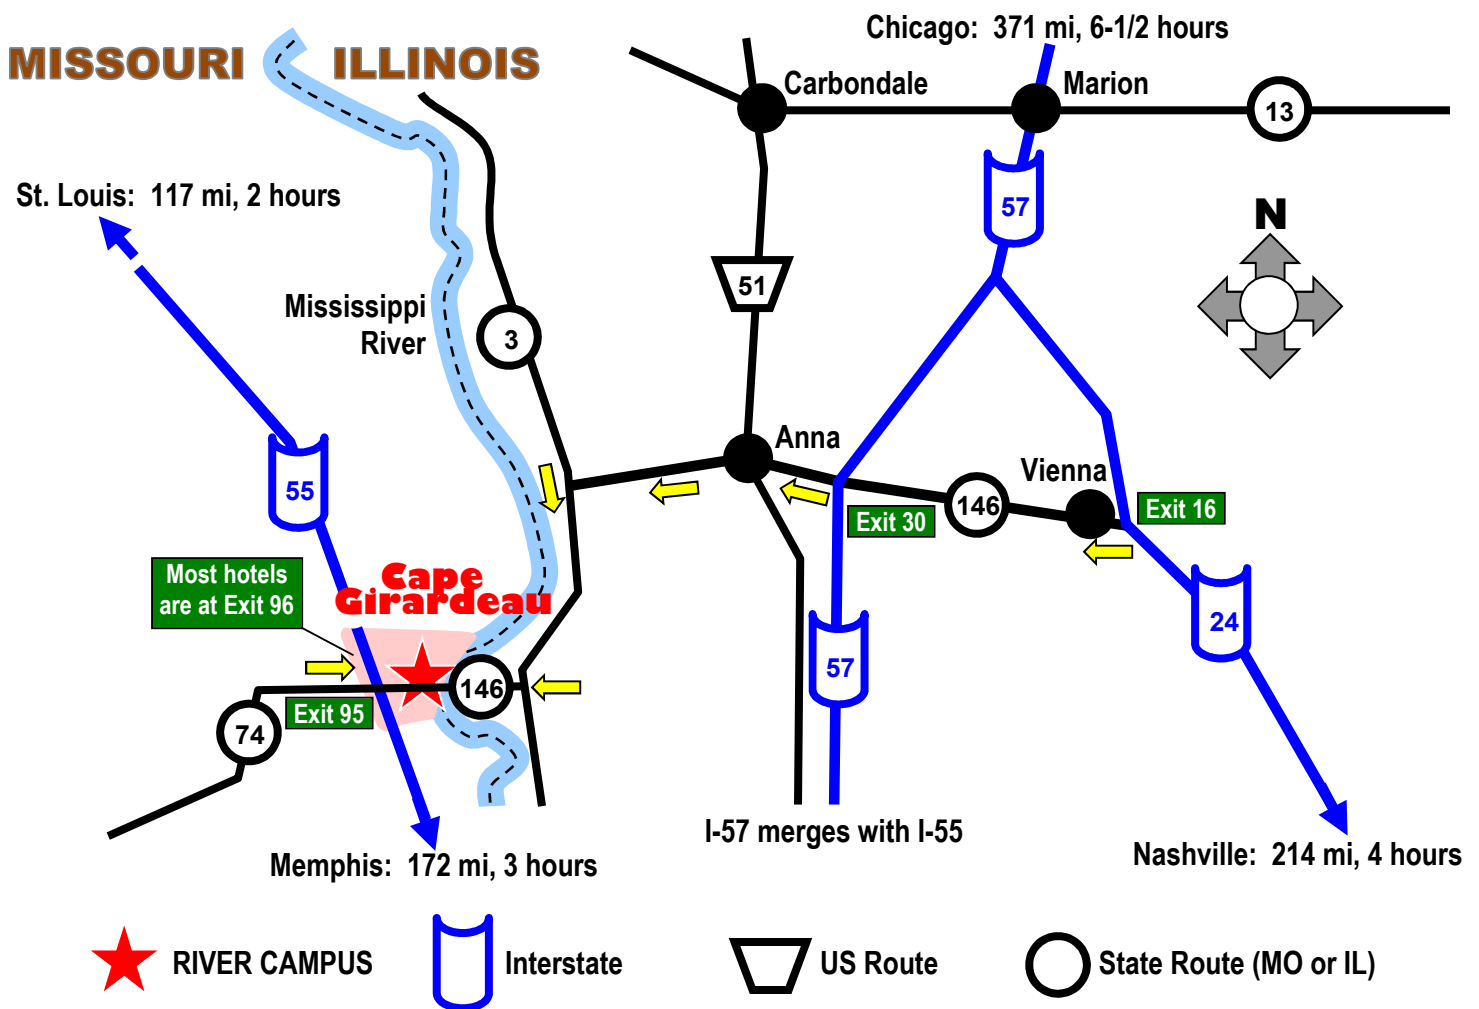

From the north or south: Take **Interstate 55** to **Exit 95** in **Cape Girardeau, MO**. From either direction, turn right onto **Missouri Route 74**. Continue east about three miles. Just before crossing the **Bill Emerson Memorial Bridge** into Illinois, turn left onto **Fountain Street** and take an immediate right onto the **River Campus**.

From the east (Illinois): From **Interstate 57**, take **Exit 30**; from **Interstate 24**, take **Exit 16**. Follow **IL-146-west through Anna**. At the roundabout, take your second exit, essentially going straight, following **IL-146-west** all the way to **Missouri**. Cross the **Bill Emerson Memorial Bridge** and turn right onto **Fountain Street**. Take an immediate right onto the **River Campus**.

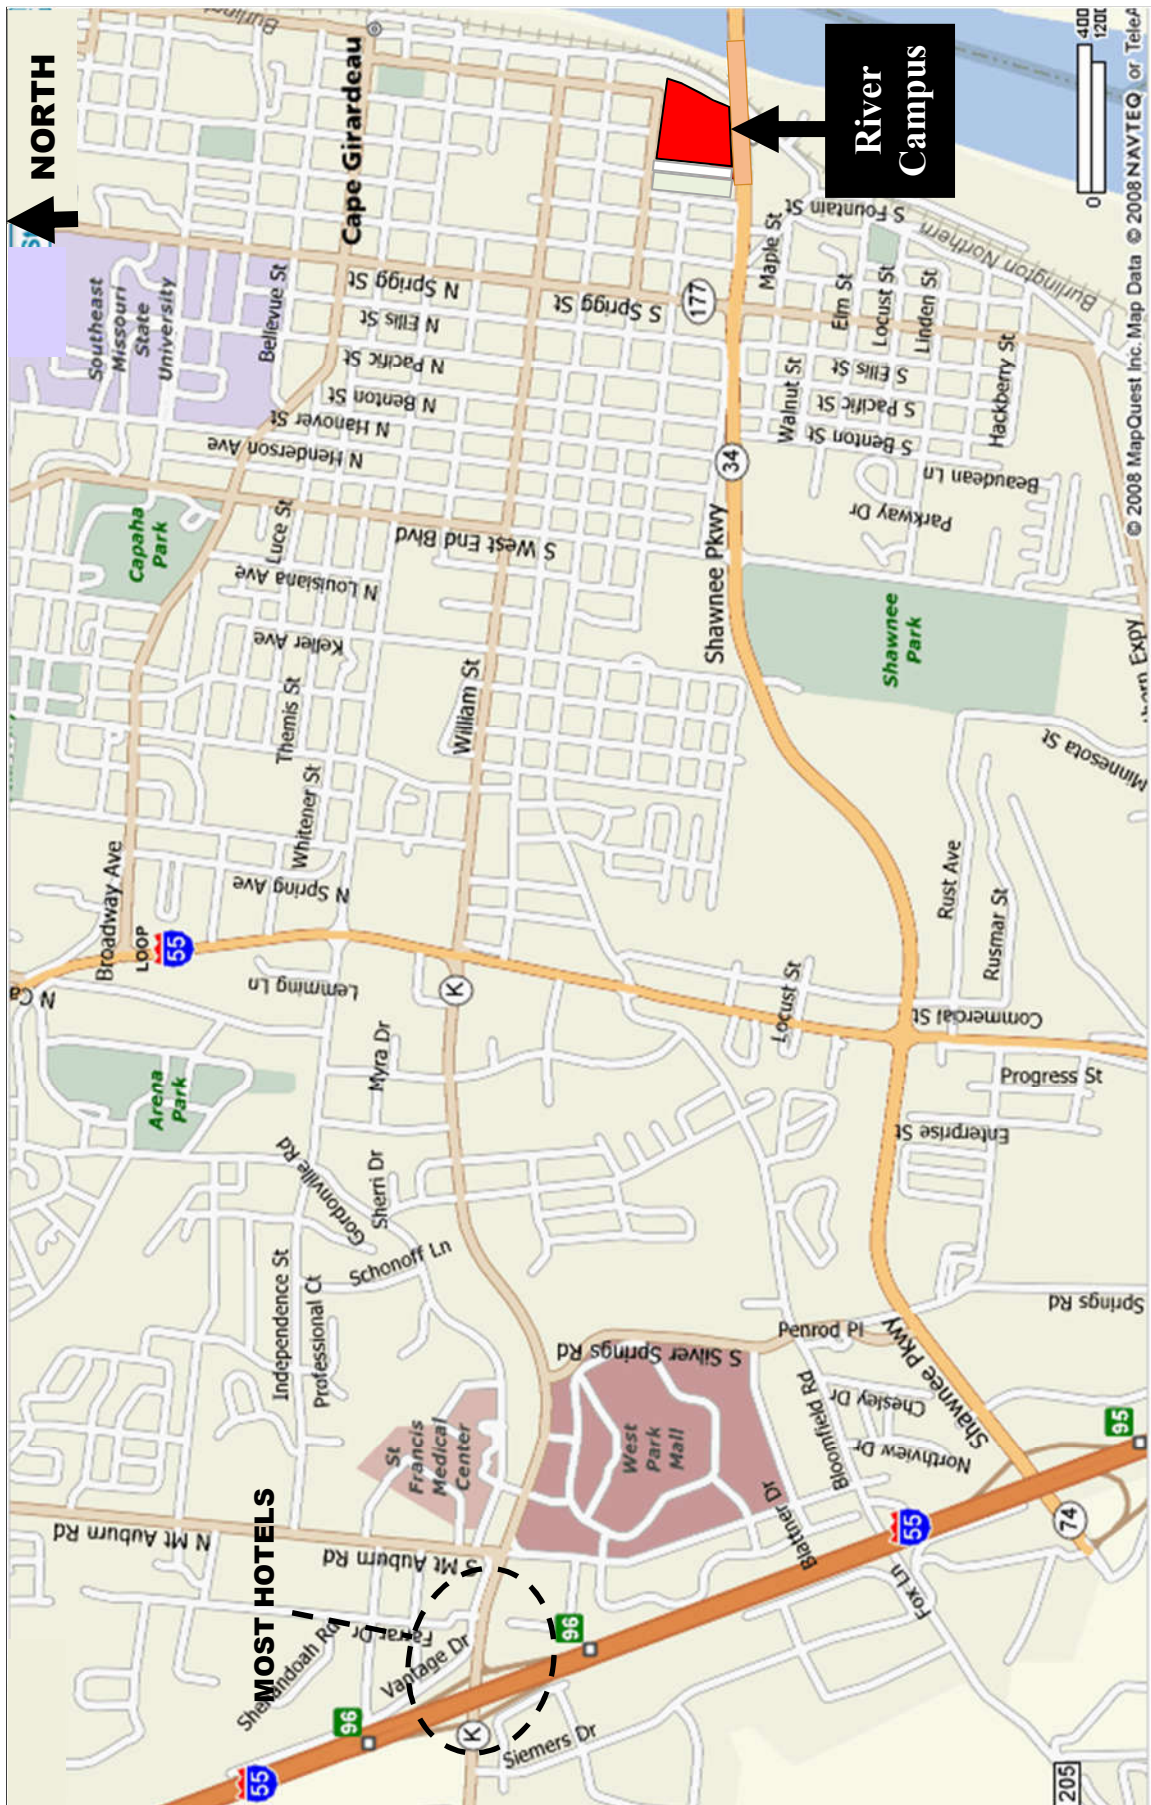

Loading dock & stage door are located on the southwest corner of the **Cultural Arts Center**.

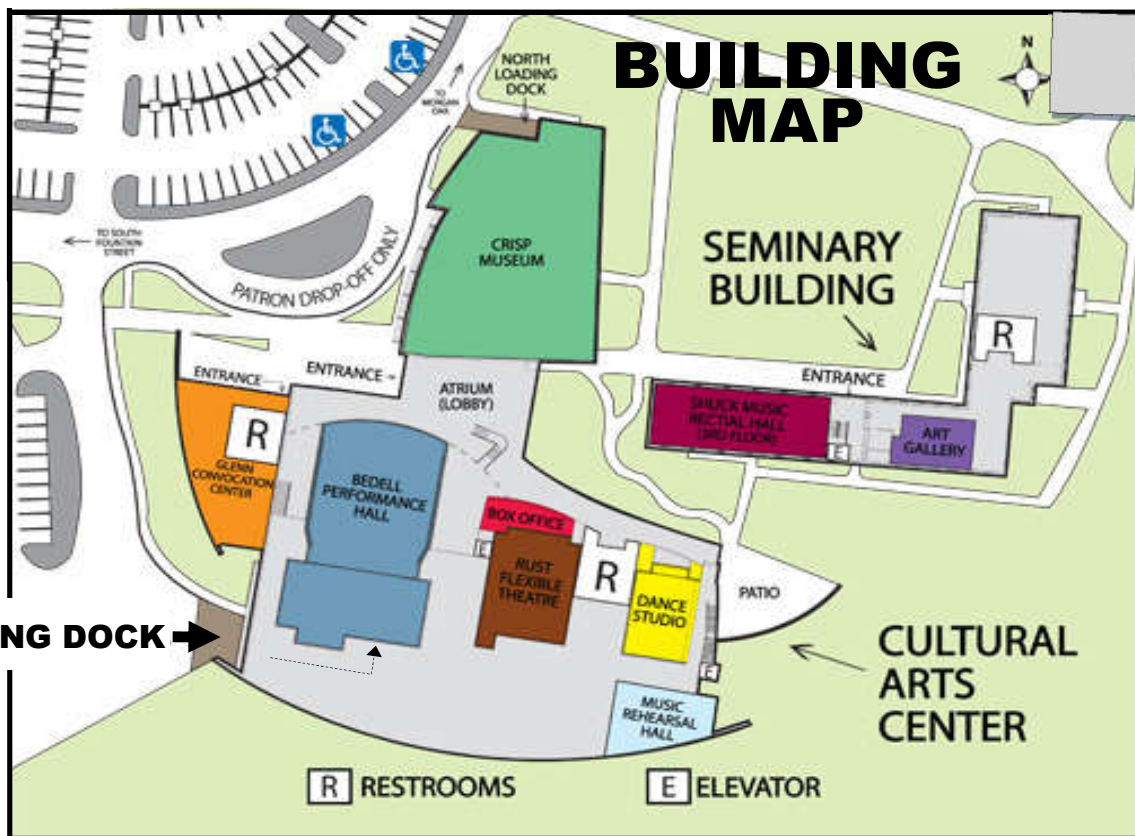

When you turn off **Fountain Street**, take an immediate right and go to the far end of the building. You will see the dock on your left. See campus maps on page 11, photograph on last page.
